Please submit a text file or PDF answering the following:

1. What were your contributions to the Group Project?

I have Worked on ER Diagrams, SQL script, HTML, PHP, and communicating with Team on Discord for project planning.

2. What are some things you learned from doing the Group Project

I have gained invaluable experience doing the group project and working with my team members, Got to know a lot more information on the Databases and got experience working on working on databases independently.

3. What tools did you choose to use to collaborate for this project?

Some of the tools we choose to use for this project are as follows:

Discord – For group meetings and Project Planning

MariaDB – School database to run the SQL scripts

Vs Code – To code HTML & PHP

Turing/hopper – NIU default machine

HTML and PHP – For website development

4. Is there anything else you'd like to communicate to me about the project? Put it here.

Thank you so much for giving the opportunity to work on the group project. This can be so much helpful for my future endeavors.

5. For each of your teammates:

- . On a scale of 1 to 10, how would you rate this group member's contribution to the project?
- a. Describe, briefly, which parts of the project they contributed to

Jabari Cox – 10

Dominic Brooks - 10

Logan Misevich - 10

Jacob Diep – 10

a)

Initially we worked together for ER Diagram , Description of all entities , relationships and attributes, Relational schema of database converted from ER Diagram , Normalization , SQL script containing DML code to create database design and then we split the work for HTML & PHP Code

Dhruvit Patel – I worked on Checkout page

Jabari Cox – Jabari worked on Customer main and
Product page

Dominic Brooks – Dominic worked on Order tracking

Logan Misevich – Logan worked on Shopping cart page

Jacob Diep – Jacob worked on Employee main page
